available colours

ViralOff
POLYGIENE TECHNOLOGY

Centers for Disease Control and Prevention (CDC) recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain, especially in areas of significant community-based transmission.

Disclaimer: The face coverings have not been certified by any third party, and have not been certified for clinical environments (such as hospitals, medical clinics, etc.). Wearing the face coverings are not guaranteed to provide full protection against or fully remove risk of infection, as infection depends on many factors both known and unknown, including without limitation, fit, use, environment, and duration.
